

## Downloading the EBSCO Mobile App

The EBSCO App is available for iOS and Android devices from the iTunes App store and Google Play.

## EBSCO Mobile App OS Requirements

Your device must be running:

- Apple Devices: iOS 11+
- Android Devices: Android 5+

## Logging in to the EBSCO App

After opening the EBSCO App, you can choose whether you'd like to sign in with your Personal User Account or use the Find my Library feature to sign in with your institutional credentials.

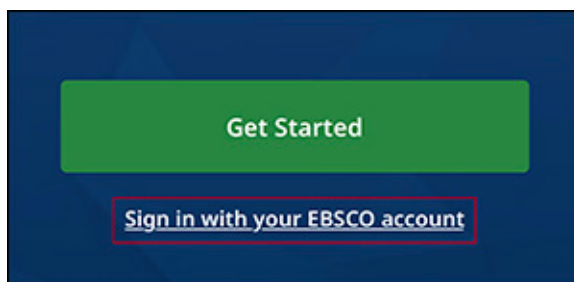

You only need to log in to the app once. The app remembers your login credentials and you are automatically authenticated for future sessions.

### Personal User Account

If you have previously created a Personal User Account for accessing EBSCOhost/EBSCO Discovery Service, you can use that to log in to the app. When you log into the app with your personal user credentials, any articles you save in the app are automatically saved to your personal folder.

### To log in with your personal account:

1. Open the EBSCO App and tap the **Sign in with your EBSCO account** link that appears at the bottom of the screen.

2. Tap **Continue** to allow the app to continue to allow you to sign in.
3. Enter your personal user account User Name and Password and tap **Sign In**.

-OR-

If you have already created a personal user account with your Google account, tap the **Sign in with Google** button and follow the prompts to log in.

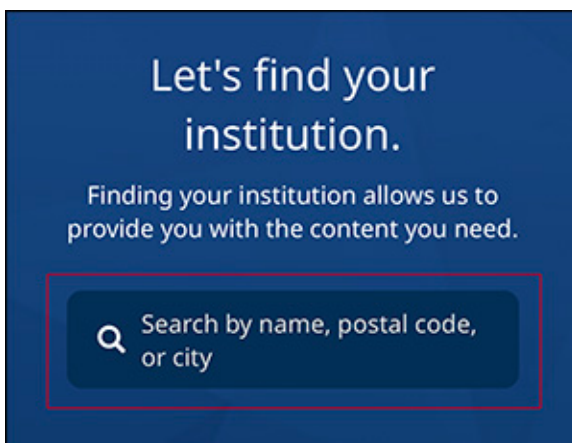

## Library/Institutional Credentials

The library or institutional login methods used by your institution to access the app are configured by your institution's administrator. If you need these credentials, please see your administrator to get them.

**Note:** Once logged into the app, you can create your own Personal User Account from within the app.

### To log in via your library/institutional credentials:

1. Open the EBSCO App and tap the **Get Started** button that appears near the bottom of the screen.
2. Tap the search box to find your library.

3. Select your institution from the list and click **Next**.
4. Tap **Continue** to allow the app to continue to allow you to sign in.
5. Log in via the method provided by your institution. (User Name/Password, Patron ID, etc.)

-OR-

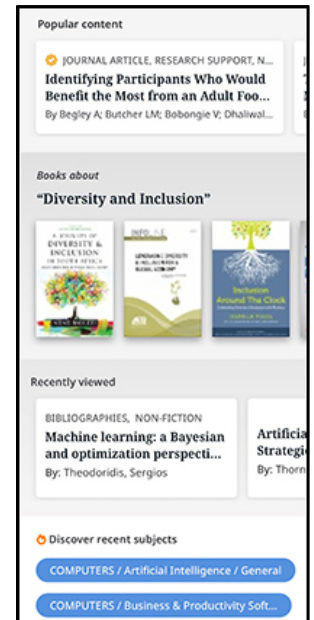

If you have already created a personal user account with your Google account, tap the **Sign in with Google** button and follow the prompts to log in.

## The Home Screen

After logging in to the EBSCO Mobile App, you see the Home screen. You can return to the Home screen at any time by tapping the  icon in the menu at the bottom of the screen.

From the EBSCO Mobile App Home screen, you can view:

- **Popular content:** Swipe to the left to view articles that are popular with users. Tap an article to view it.
- **Books about:** Swipe to the left to view available books of potential topics of interest.
- **Recently Viewed:** Swipe to the left to see the articles you have recently viewed while using the app. Tap an article to view it again.
- **Discover Recent Subjects:** Tap a subject in the **Discover recent subjects** area to execute a search of articles related to that subject. Subjects in this area are displayed based on articles you have viewed while using the app.

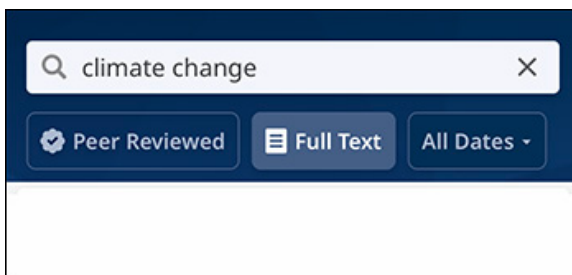

## Searching the EBSCO Mobile App

To search the EBSCO Mobile App:

1. Tap the **Magnifying Glass** in the menu at the bottom of the screen to access the Search screen.

2. Enter your search terms in the Search Box. As you type, the app suggests search terms you can tap to quickly run a search.
3. Tap a filter (**Peer Reviewed**, **Full Text**, **Date Range**) to apply it to your search.

4. Tap **Search** on your device's keyboard to run the search.

5. Your results are displayed. Tap an article or book title to see the details or read the full text, when available.

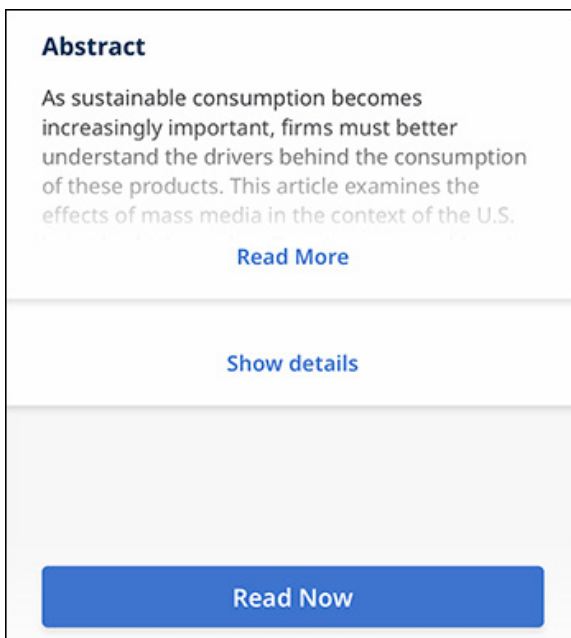

## Reading Articles on the EBSCO Mobile App

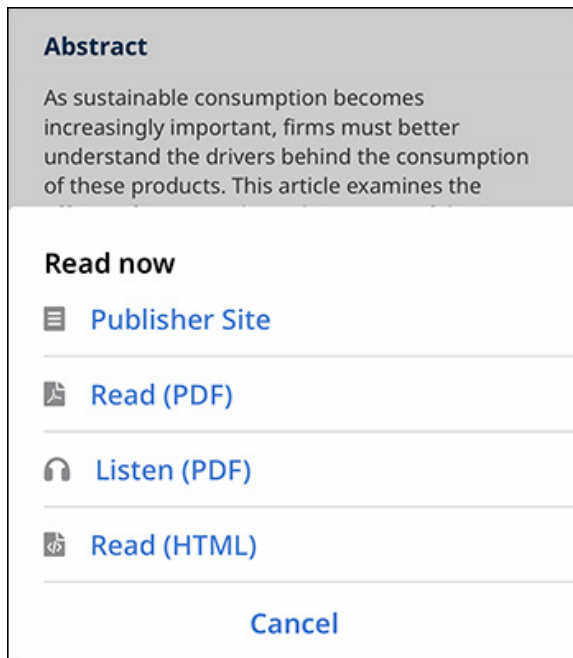

To read articles on the EBSCO Mobile App:

1. On the article screen, select to **Read More** of the abstract, **Show Details** (article citation information) or **Read Now** (full text of the article, when available).

**Note:** The **Read Now** option will not appear when full text for the article is not available.

2. When you select to read the full text, select from the options available to you.

## Saving Articles on the EBSCO Mobile App

When you are signed in to the EBSCO Mobile app with your personal user account, articles that are saved in the app are also saved to your personal My EBSCOhost folder and are available from anywhere you log into EBSCOhost.

### To save articles on the EBSCO Mobile App:

1. From an article page or the result list, tap the **Save** icon.

2. The article is saved and the icon changes to a solid color.

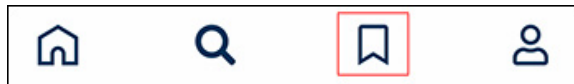

3. If you wish to remove the article from your Saved articles, simply tap the icon again.

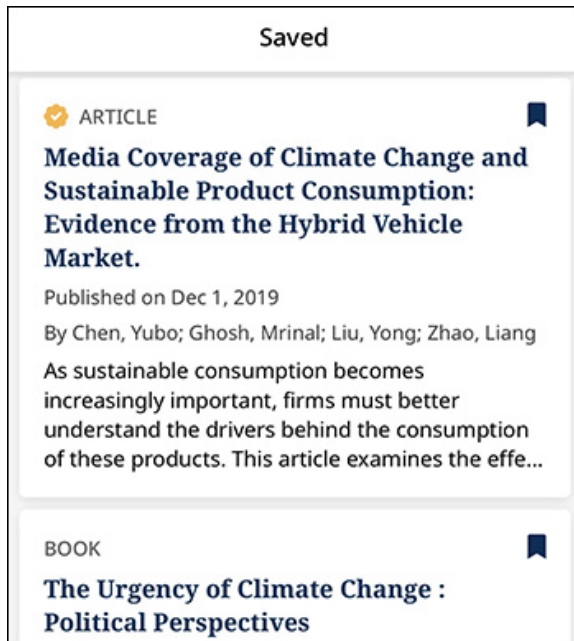

### Viewing Your Saved Articles in the App

To view your Saved articles:

1. Tap the Saved icon at the bottom of the screen to view your Saved articles.

2. Tap an article title to read it.

## Creating a Personal Account

If you are signed in to the EBSCO Mobile App with login credentials from your library or institution, you have the option to create a personal account from within the app. When signed in to the app with a personal account, articles that are saved in the app are also available to you in the My EBSCOhost folder when you sign in to EBSCOhost with your personal account credentials.

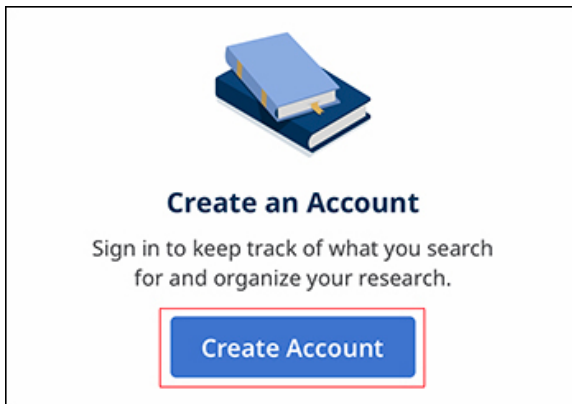

**Note:** If you already have a personal account to access EBSCOhost on your desktop computer, you can use this account to sign in to the app. When you sign in with an existing account, items stored in your My EBSCOhost folder are available from the Saved items in the app.

**To create a personal account from the EBSCO Mobile App:**

1. Launch the Mobile App and tap **Find My Library**.
2. Tap your library name in the displayed list and enter your institution's credentials to sign in to the app.
3. Tap the **Profile** icon in the menu at the bottom of the screen to access the Profile screen.

4. Tap the **Create Account** button to access the Create Account screen.

5. Fill in your information and click the **Create Account** button.

You receive a confirmation that your account has been created and are prompted to tap **Log In** to sign in with your new personal account credentials.

## Sharing Articles from the EBSCO Mobile App

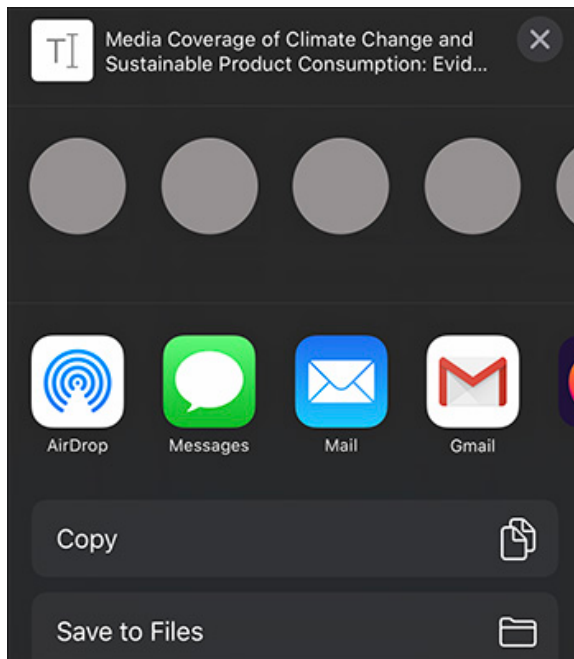

The EBSCO Mobile App enables you to share articles using your device's sharing menu.

**To share articles from the EBSCO Mobile App (iOS version):**

1. From an article page or the result list, tap the **Share** icon.

2. Select the desired method to share the article from your device's available options. (Message, Email, etc.)

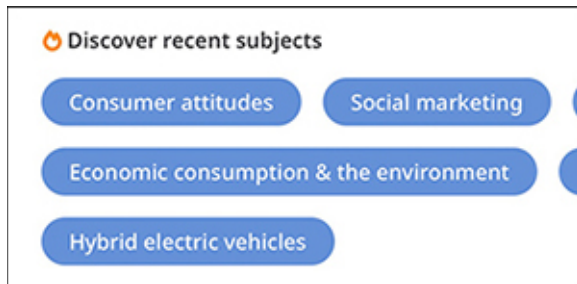

## Navigating Subjects and Authors in the EBSCO Mobile App

The EBSCO Mobile App enables you to browse subjects of interest based on your searches and articles you have viewed as well as perform article searches for the author or authors of the article you are viewing.

### Discover Recent Subjects

From the home screen of the app, you can tap a subject in the **Discover recent subjects** area to execute a search of articles related to that subject. Subjects in this area are displayed based on articles you have viewed while using the app.

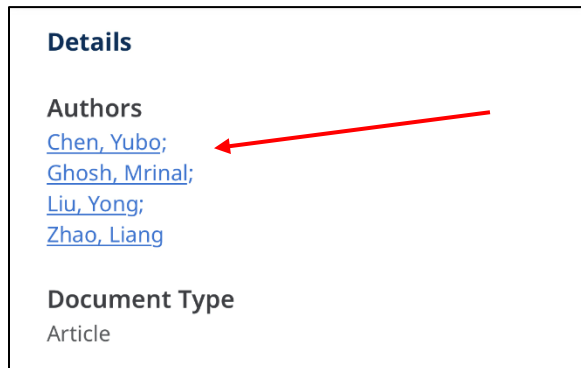

### Article Detail View Subjects

From an article's detail view, you can tap a subject to view a result list of all articles related to that subject. You can swipe to the left to reveal all available subjects.

## Author Searches from the Detail View

From an article's detail view, you can also perform a search for more articles from the author or authors of the article. Simply tap a hyperlinked author name under **Details** at the bottom of an article's detail view.

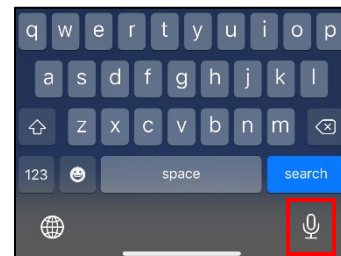

## Frequently Asked Questions

### Q. What does the Full Text limiter in the EBSCO Mobile App limit results to?

In the EBSCO Mobile App, the **Full Text** limiter includes anything with full text electronically available from your institution. It is not the **Available in Library Collection** limiter (EDS) and therefore does not include Catalog or Institutional Repository (IR) results.

### Q. Can I search the EBSCO Mobile App with my voice?

Yes. To enter your search terms with your voice, tap the microphone button on your device's keyboard and speak your search terms when prompted.

### Q. Can I install the EBSCO Mobile App on multiple device?

Yes. The EBSCO Mobile App can be installed and authenticated on multiple devices.
